

Instructions:

Link to On-Line Course – Mandatory portion of Blended Learning Programme

The following link can be used to register for the Blended Learning on-line session.

<http://redcrosslearning.com/course/73d7a620-38d4-11e6-a59a-67acc4de20d4>

Please note: that for some people the link above works as a hyper link, for some it worked better to copy and paste the link into a browser. **FIREFOX** is recommended. You will require **Adobe Acrobat DC** and an up-to-date **Flash Player**. You must allow **pop-ups** and **cookies**.

Please read carefully:

CORPORATE CLIENTS: Please take note that your IT security systems may not allow you access to do the on-line portion at your work station, we therefore recommend using a personal email address on a computer not linked to your systems at work.

We recommend **Firefox** as your browser it seems to work best.

Special Note: This will not work on a smart phone, but works on both PC's and MAC

Register by creating a new account – your email address and a password, then proceed with the instructions that follow. You must complete **all** CPR/AED/First Aid missions and the final assessment to receive the certificate.

When completed participants will receive a “**Proceed to Skills Session**” Certificate, which must be sent to the following email **BEFORE** the start of the course the participant(s) is registered into.
